(b) within the limits in compliance with the RREC legislation, hold real estate assets listed in article 2, 5°, vi to x of the RREC Act.

By real estate in the meaning of article 2, 5° of the RREC Act is meant:

- i. real estate as defined in articles 517 and following of the Civil Code and the rights in rem over real estate, excluding real estate of a forestry, agricultural or mining nature;*
- ii. shares with voting rights issued by real estate companies under the exclusive or joint control of the Company;*
- iii. option rights on real estate;*
- iv. shares of public regulated real estate companies or institutional regulated real estate companies, provided in the latter case, joint or exclusive control over these companies is exercised by the Company;*
- v. the rights arising from contracts giving one or more goods in finance-lease to the Company or providing other similar rights of use;*
- vi. shares in public real estate investment companies;*
- vii. shares in foreign real estate funds included in the list referred to in article 260 of the Act of 19 April 2014 on alternative investment funds and their managers;*
- viii. shares in real estate funds established in another member state of the European Economic Area not included in the list referred to in article 260 of the Act of 19 April 2014 on alternative investment funds and their managers, to the extent that they are subject to supervision equivalent to the supervision that is applicable to public real estate investment companies;*
- ix. shares issued by companies (i) with legal personality; (ii) under the law of another member state of the European Economic Area; (iii) which shares are admitted to trading on a regulated market and/or are subject to prudential supervision; (iv) whose main activity consists in acquiring or building real estate in order to make it available to users, or the direct or indirect holding of participations in certain types of entities with a similar corporate purpose; and (v) that are exempt of income tax on profits in respect of the activity referred to in (iv) above subject to compliance with certain requirements, at least pertaining to the legal obligation to distribute part of their income to their shareholders (the Real Estate Investment Trusts , or "REITs");*
- x. real estate certificates referred to in article 5, § 4, of the Act of 16 June 2006 on the public offer of investment securities and the admission to trading of investment securities on regulated markets.*

In the context of providing real estate, the Company can, in particular, exercise all activities related to the construction, rebuilding, renovation, development, acquisition, disposal, management and exploitation of real estate.

The Company develops a strategy so that it can participate to all stages of the value chain in the real estate sector. For this purpose the Company acquires and sells real estate properties and legal rights relating to real estate properties with the aim to provide them to its users, but the Company can also manage the development (renovation, development, extension, creation, ...) and the day-to-day management of its own real estate properties. It can be the syndic of a real estate property of which it is co-owner or "property manager" of a building complex of which it is one of the owners. In this framework it exercise all other kind of activities creating an added value to its real estate properties or its users (facility management, organisation of events, caretakers services, renovation works adapted to the specific needs of the tenant, ...). The Company can also offer personalised turn-key solutions whereby the real estate properties are adapted to the specific needs of their users.

For this purpose:

- a) the Company exercises its activities on its own, without any delegation to another third party than a related company, pursuant to articles 19 and 34 of RREC Act, whereby the asset management cannot be delegated;*

- b) *it keeps direct contacts with its clients and contractors;*
- c) *it has at its disposal, in view of exercising its activities in the way determined in this article, operating teams which largely compose its staff.*

4.2 On an ancillary or temporary basis, the Company may make investments in securities which are not real estate in compliance with legislation on regulated real estate companies. These investments will be made in compliance with the risk management policy adopted by the Company and will be diversified in a way to ensure an adequate risk diversification. The Company can also hold unallocated liquidities, in any currency, in the form of cash or term deposit or in any instrument of the monetary market that can be easily mobilised.

It may also use hedging instruments, with the exclusive aim to hedge the interest rate and exchange risk in the context of the financing and management of the real estate of the Company and with the exclusion of any transaction of a speculative nature.

4.3 The Company may take or give one or more real estate assets in finance-lease (as mentioned in IFRS standards). The activity of giving real estate assets in finance-lease with a purchase option can only be carried out in ancillary order, except where these real estate assets are intended for the public interest including social housing and education (in which case the activity can be carried out as a primary activity).

4.4. Pursuant to legislation applicable to regulated real estate companies, the Company may also:

- *purchase, renovate, furnish, rent, sublet, manage, exchange, sell, subdivide the property or placing it under the system of joint ownership as described above;*
- *grant mortgages or other securities or guarantees only in the context of the financing of its real estate activities, pursuant to article 43 of the RREC Act;*
- *grant credits and provide securities or guarantees in favour of a subsidiary of the Company pursuant to article 42 of RREC Act.*

4.5. The Company may acquire all movable or immovable property, materials and accessories, rent or rent out, carry over or exchange, and generally, in compliance with the legislation on regulated real estate properties perform all commercial or financial actions that are directly or indirectly related to its purpose and the exploitation of all intellectual rights and commercial properties related to it.

Insofar as it is compatible with the status of regulated real estate company, the Company may, through contribution in cash or in kind, mergers, subscriptions, participations, financial interventions or other means, participate in all existing companies or enterprises, or those yet to be formed, in Belgium or abroad, the purpose of which is identical to its own or the nature of which is such that it promotes its purpose."

Proposal for decision: proposal for approval of this resolution, subject to the decisions set out in point 3 of Title A and subject to the prior approval by the Meeting of the proposals set out in point 3 of Title A and in Title B, for buying back own shares by the Company pursuant to article 620 § 1, first paragraph 2° of the Belgian Companies Code, provided:

- (i) that the acquisition can only takes place for shares for which one or more shareholders exercise their exit right pursuant to article 77 § 3 of the Act of 12 May 2014 on regulated real estate companies and the determined conditions (the shareholder who wishes the exercise the exit right must be present or represented at the general meeting, he must vote with the shares for which he asks the purchase against the proposal to change in a regulated real estate company, he can only exercise the exit right up to a number of shares of which the complete acquisition price represents a cap of hundred thousand euro (€ 100.000) and he can only exercise the exit right for shares of which he remained owner in an uninterrupted manner since the 30th day preceding the general meeting;
- (ii) that pursuant to article 620 § 1, first paragraph 3° of the Belgian Companies Code the total amount for which the shares can be acquired cannot exceed the sum of seven million five hundred and forty thousand euro (€ 7.540.000,00), being the amount that pursuant to article 617 of the Belgian Companies Code is available for distribution;
- (iii) that regarding the cap of the number of shares that can be acquired is calculated as follows (seven million five hundred and forty thousand euro (€ 7.450.000) X hundred (100)): the price determined under (iv) X fourteen million seven hundred and seventy seven thousand three hundred and forty two) (14.777.342));
- (iv) that the price at which the shares are acquired, is calculated pursuant to article 77 § 3 of the Act of 12 May 2014 on regulated real estate companies, namely the highest price between (a) the last closing price before the publication of the convening notice for the general meeting of shareholders and (b) the average of the closing price of the thirty calendar days preceding the date of the general meeting approving the amendments to the articles of association.

The acquisition takes place with the possibility of order declaration, this means that the Company can declare that it has acquired all or a part of the shares for the account of one or more third parties who confirm this purchase. This confirmation, as well as the full payment of the price to shareholders exercising their exit right, have to take place within the month following the general meeting, pursuant to article 77 § 5 of the Act of 12 May 2014 on regulated real estate companies.

If the number of shares for which shareholders have exercised the exit right exceed the cap of the number of shares that the Company can buy as determined under (iii), without exceeding three per cent (3 %), consequently these shares exceeding the cap will be acquired as determined under (iv) by one or more third parties, who will be designated by the management committee immediately after having noticed that the above mentioned threshold has been exceeded.

May it be clear that this acquisition of own shares or obtaining shares the by one or more third parties may not cause that the proportion of voting shares of the public regulated real estate company in public hands would drop below thirty (30 %).
